STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission often recruits non-permanent staff. There are two categories of non-permanent staff:

- [temporary agents](#) are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- [contract agents](#) may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

WE ARE

The Joint Research Centre provides independent, evidence-based knowledge and science, supporting EU policies to positively impact society.

The current vacancy is in the Directorate F for Health, Consumers and Reference Materials. Its mission is to protect health and promote wellbeing by ensuring that EU policies and regulations make the best use of scientific knowledge, evidence and standards. The Directorate work programme is built around three multifaceted thematic pillars, namely Non-Communicable Diseases, One Health, and Sustainable Food Systems.

The directorate employs novel community-bridging practices to foster a multidimensional, interdisciplinary and anticipatory understanding of innovation and future regulatory and policy needs. A key aim is to unlock the full potential of the bio-revolution driving disruptive change in life and health science sectors, focusing on safety, security and enhancement of the European way of life.

Specifically the vacancy is within the Chemical Safety and Alternative Methods Unit (F.3), which incorporates the European Union Reference Laboratory for alternatives to animal testing (EURL ECVAM).

We develop, evaluate, standardise and promote innovative methods for the regulatory safety assessment of chemicals used in a variety of sectors, with the important additional aim of protecting animals used for scientific purposes. We provide support to a broad range of policy areas including industrial and household chemicals, cosmetics, food and feed, plant protection products, endocrine disrupters and chemical mixtures.

Our work also facilitates and promotes the use of alternative methods in biomedical research through various means, including identifying promising in vitro models for understanding mechanisms of disease and for development of novel therapies.

WE PROPOSE

The Chemical Safety and Alternative Methods Unit of DG JRC proposed a position as scientific data
