The DG directly enforces EU competition rules to make EU markets work better, by ensuring that all companies compete equally and fairly on their merits. This benefits consumers, businesses and the European economy as a whole.

Unit COMP.I.3 "Digital Business Solutions" helps transform DG COMP into a data-driven organisation equipped with state-of-the-art digital solutions in order to support EU competition policy and enforcement needs.

Our unit delivers digital solutions for case management, collaboration, exchange of data and artificial intelligence used by Commission staff and its external stakeholders. We work in close collaboration with policy units in DG COMP, other Directorates-General and Member States representatives, as well as with stakeholders in the private sector and European citizens.

The system is widely used in Merger control as well as in Antitrust Investigations.

In his/her role, the candidate will connect the technical and business worlds and will break down complex problems into steps that drive product development.

The candidate will lead a team of 8 external service providers (business analyst, solution architect, developers and testers) to help design, develop and maintain the eRFI solution.

As an IT Project Manager at DG COMP, the candidate will be working with PM², Agile development methodologies (e.g. Scrum), DevSecOps practises and new technologies such as Java EE 8, Spring, Hibernate, REST, eUI and Kubernetes (Cloud on Premises).

The assignments of IT Projects might change in the future within the unit, according to the evolving needs of the DG.
