STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission often recruits non-permanent staff. There are two categories of non-permanent staff:

- **temporary agents** are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- **contract agents** may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

Risk Management Officer

In DG Budget of the European Commission

Job title: Risk Management Officer

Domain: Economics, Finance and Statistics

Where: Chief Risk Officer team, Directorate General Budget, Brussels

Function Group: FG IV

Express your interest until: 15/04/2024 – 17.00 (Brussels time)

WE ARE

Directorate-General for Budget (DG BUDG) is the central service of the European Commission responsible for the preparation and implementation of the annual and multiannual budget of the European Union. It consists of about 600 staff and is made up of six directorates based in Brussels and in Luxembourg. The staff members come from all EU countries with various professional expertise: accounting, economics, finance, business, programming, audit, law, communications, human resources, European administration, and other fields.

On behalf of the EU, DG BUDG is responsible for the borrowing activities on the capital markets to finance various EU programmes, such as NextGenerationEU ('NGEU'), Balance of Payment (BOP), SURE, Macro Financial Assistance (MFA), etc. in the form of grants and/or loans to beneficiary Member States to non-EU members. In effect, DG BUDG fulfils the role of the Treasury for the EU. DG BUDG also acts as the second line of defence for the assessment, monitoring and mitigations of the operational, market, liquidity and credit risks related to these borrowing operations, but also to the related debt management operations, liquidity management operations and lending operations.

Given the volumes, frequency and complexity of these financial operations, the Commission appointed a Chief Risk Officer ('CRO') and established a dedicated risk and compliance management team ('the CRO team'). The role of the CRO is to ensure sound governance, effective risk management and oversight of EU borrowing, debt management and lending operations through the development and implementation of an effective risk and compliance management framework ('the Framework') under the unified funding approach. This risk management framework is a critical element in providing adequate protection of the financial interests of the EU.

In view of the ever-increasing complexity of these financial operations of the EU, the CRO and the risk management team have to be commensurately strengthened with additional experts.

WE PROPOSE

The office of Chief Risk Officer is seeking to hire a Risk Management Officer with a focus on assessing the risks arising from the borrowing, debt management and lending operations.

As a second line of defence, the Risk Management Officer is expected to assess and report on various risks, including market risk, funding and liquidity risks, and credit risk.

The successful candidate will also participate in the continuous development of the risk framework, including the review and improvement of various risk policies (e.g., [High Level Risk and Compliance Policy](#)), measurement methodologies, and guidelines, based on best practice and needs of risk management.

However, the Risk Manager Officer's tasks will primarily focus on:

- Run weekly and monthly risk metrics in the Risk Management Tool for financial operations and prepare the risk reports;
- Monitor capital markets' developments; market watch;
- Participate to the identification, assessment and the mitigation of the risks for the financial operations;
- Participate to the development, implementation and maintenance of the risk tools, used for the risk assessment and monitoring;
- Support the Senior Risk Officer in the preparation of Risk Management opinions related to first line of defence borrowing strategies and funding proposals as well as liquidity management operations;
- Support the Senior Risk Officer in the review and/or update of the first line of defence manuals and process;
- Assists in the development of risk management methodologies and procedures in compliance with the relevant risk policies;
- Maintain up to date risk management processes related to the market and funding liquidity risks, credit risk and other processes in the scope of oversight.

WE LOOK FOR

We are looking for a dynamic and knowledgeable colleague, who can bring strong analytical skills to the CRO's team. The successful candidate would have specific expertise and/or experience with banks and financial institutions, credit rating agencies, multilateral development banks, international organisations, development financial institutions as a market risk and/or credit risk analyst.

She/he should also be able to coordinate work across different Directorates and services. Excellent communication and inter-personal skills are key in facilitating constructive dialogue with colleagues across the Directorate general and the Commission.

The most important qualification is a convincing motivation, willingness to learn, and eagerness to make a meaningful contribution to the development of the risk management function within the Commission.

Experience / qualifications:

- Minimum 5 years of relevant working experience as a risk officer/analyst, loan officer or similar role in banking and non-banking financial institutions, professional services firms, credit rating agencies, international financial institutions, national development banks / agencies, etc.
- Experience with assessment and reporting of financial risks concerning borrowing and lending operations, the management of liquidity, interest rate risk, and concentration risk.
- Development and maintenance of risk models and review of parameters on assumptions (backtesting).
- Ensure the adequacy of financial risk models and stress scenarios
- IT skills:
 - Python/VBA/Matlab/Java
 - Excellent level in Excel

Education:

- University degree in banking/finance, statistics, economics.
- Additional professional qualifications (i.e. PRM, FRM, CFA) is an advantage;
- Excellent written and oral communication skills in English is a requirement.

Languages:

	Listening	Reading	Spoken interaction	Spoken production	Writing
English	C1	C1	C1	C1	C1
