DG Competition of the European Commission

Staff category and Function Group: Temporary agent 2b – Administrator

Grade range: AD 5-8

Publication deadline: 30/04/2025 - 12.00 (Brussels time)

WE ARE

Directorate COMP.J of DG Competition is entrusted with the enforcement of the Digital Markets Act (DMA) and Articles 101 and 102 TFEU in relation to digital platforms. The DMA is one of the first regulatory tools to regulate comprehensively the gatekeeper power of the largest digital platforms. It aims to make the markets in the digital sector fairer and more contestable. The DMA therefore complements the EU competition rules that continue to apply to this sector and will continue to be enforced by DG Competition.

Directorate COMP.J cooperates closely with Directorate COMP.C, responsible for the enforcement of EU competition rules in the sectors of electronic communications, media and the information technology industry, and with DG Communications Networks, Content and Technology (DG CONNECT). Furthermore, it cooperates with other Commission Services on policy initiatives in relation to digital platforms.

The units of the Directorate work together in a flexible network. The network allows for task-oriented resource allocation in implementing and enforcing the Digital Markets Act and antitrust rules and for agility in responding to new challenges in the sector.

We aim to fill around 10 posts of Case Handler Officers in the coming 6 months.

WE PROPOSE

A challenging and interesting position as a case handler in a friendly, positive and exciting working environment.

The enforcement of the DMA is closely coordinated with the enforcement of EU and national competition rules to ensure consistency and complementarity in the use of all instruments. The enforcement work with regard to gatekeepers includes preparing designation decisions, monitoring compliance, engaging in regulatory dialogues with the regulated companies and a wide array of third parties, conducting investigations into non-compliance, specifying compliant solutions, preparing decisions, contributing to defending decisions before the European courts,

etc. The tasks include coordinating with other services and reporting to the hierarchy, developing new procedures and improving existing processes, and contributing to the knowledge management.

The work is novel, intellectually challenging and interactive, involving frequent contacts with other DGs and national authorities. The successful candidate will get a chance to work in cutting-edge digital sectors.

We offer a flat organisational structure and a friendly and open-minded working atmosphere. Colleagues are given a high degree of autonomy in carrying out their tasks in a team-spirit environment.

WE LOOK FOR

We are looking for motivated and dynamic candidates with legal, economic, data scientist or engineering background who are good team players while at the same time able to work independently. They should have a sound understanding of digital markets. Specific experience in the application of competition law in the information technology sector or a “technical” profile as an engineer or data scientist are additional assets. Excellent analytical skills, written and oral communication skills and the ability to work under tight deadlines are of crucial importance. The candidates should moreover have a good sense of initiative and solid organisation skills. An excellent command of English is necessary.
