**Selection reference:** MARE/COM/2025/683

**Domain:** Law

**Where:** Unit MARE.D4 – Fisheries Control and Inspections, Brussels

**Staff category and Function Group:** Temporary agent 2b – Administrator

**Grade range:** AD 5-8

**Publication deadline:** 24.04.2025 – 12.00 (Brussels time)

### WE ARE

---

DG Maritime Affairs and Fisheries (DG MARE) aims to develop the potential of the European maritime economy and to secure sustainable fisheries and aquaculture, a stable supply of seafood, healthy seas, and prosperous coastal communities – for today's Europeans and for future generations. This involves among other things formulating, developing and implementing the Common Fisheries Policy - the cornerstone of our actions for a sustainable exploitation of fisheries resources; and promoting an integrated approach to all maritime policies.

DG MARE has around 380 staff, distributed over 5 Directorates and 21 Units. The wide variety of responsibilities creates an interesting and challenging working environment. Hierarchical circuits are short, and working efforts translate into tangible results with a direct impact on the ground and on stakeholders.

Unit D4 deals with the control and compliance aspects of the Common Fisheries Policy (CFP), from a policy and operational/implementation point of view. We are responsible for the control and evaluation of the application of the rules of the CFP by the Member States. We are also in charge of Regulation (EC) No 2023/2842 (so-called "revised Fisheries Control Regulation"), and their implementing and delegated ([https://oceans-and-fisheries.ec.europa.eu/fisheries/rules\\_en](https://oceans-and-fisheries.ec.europa.eu/fisheries/rules_en)). Unit D4 also contributes actively to the development and the implementation of a level playing-field at international level, so that fishing rules are complied with by all international players. To do so, we actively participate to technical fora as well as negotiations at bilateral and multi-lateral level on fisheries control and we assist other Units on fisheries control and compliance issues. Finally, the Unit ensures that the European Fisheries Control Agency (EFCA) and the Commission adopt a consistent approach towards control and inspections by coordinating all relations between DG MARE

and EFCA in this area. We are a dynamic and very motivated Unit of around 26 persons, always in contact with a variety of stakeholders, EU institutions, Member States, third countries and EFCA.

## **WE PROPOSE**

---

We propose a position for an experienced Fisheries Inspection Officer who will work in MARE Unit D4 on a variety of very technical and demanding files.

The work is diverse and involves in particular:

- acting as country desk and co-desk officer for selected Member States
- coordinating, preparing and carrying out audits or verifications in Member States and following-up on them. The work also includes substantial data analysis, drafting of audit reports, drafting of Action Plans and/or EU Pilot letters or Administrative Inquiries
- analysing requests for derogations based on relevant rules and drafting relevant Commission Decisions
- providing substantial input and support to the legal unit on follow-up actions to audits involving infringement proceedings
- representing the Commission in control expert meetings with the Member States, with stakeholders and with the European Fisheries Control Agency
- providing technical advice to other country desks and to other Units on technical issues linked with the fisheries control policy and on the use of the EU maritime and fisheries fund for control purposes in relevant Member States
- substantially contributing to drafting reports, briefings and policy documents on a broad range of fisheries control and enforcement issues.

We offer a dynamic environment with a very high team spirit, despite the very intense workload of the Unit. This job provides a unique opportunity to work with a wide variety of Units in DG MARE, given the horizontal nature of Unit D4, and to deepen knowledge on several aspects of the CFP beyond control issues. The job also involves representation of the Commission towards Member States and EFCA.

## **WE LOOK FOR**

---

We look for an experienced, very motivated and dynamic team player colleague, with a keen sense of responsibility, excellent drafting, planning, coordination and negotiation skills, strong service orientation and the ability to take initiatives. The successful candidate should have strong analytical, judgement, communication (both written and oral) and diplomatic skills, and have an in-depth knowledge of the rules of the CFP of their implementation, and in particular of the EU fisheries control rules and of their implementation. The candidate should preferably have a previous experience on audit and/or with enforcement tools, in particular EU Pilots, infringements and Action Plans. It is expected that the successful candidate will be prepared to travel on a regular basis during

certain periods and that she/he will be asked to work under tight deadlines on a wide variety of files. Previous experience of at least 3 years in carrying out audits, verifications and/or inspections in the field of the fisheries control rules is highly desirable. Excellent capacity of oral and written expression in English will be essential and knowledge of other languages would be an asset.

Applicants are requested to include a one-page motivation letter with their CV.
