

MAKE A DIFFERENCE - JOIN THE EUROPEAN COMMISSION

Do you want to help shape the future of the European Union? Make the planet greener, promote a fairer society, or support businesses and innovation across the EU? Then come and work for the European Commission where you can really make a difference!

Commission staff are a diverse group of people, who are motivated to help make Europe – and the world – a better place. They come from the 27 Member States of the European Union. Different nationalities, backgrounds, languages and cultures make the Commission a vibrant and inclusive place to work.

WE OFFER GREAT JOBS AND GREAT WORKING CONDITIONS:

- Interesting and challenging positions with plenty of opportunities for training and acquiring new skills and competencies throughout your whole career
- Opportunities to try several areas or move between different policy areas in your career
- A package of flexible working conditions including the possibility of teleworking – we care about your work-life balance
- A competitive financial package, including comprehensive healthcare, accident and pension schemes
- A multilingual, multicultural workplace where personal and career development are strongly promoted
- Multilingual schools for your children

We recruit from a wide range of backgrounds and actively promote diversity and inclusion:

We do not only recruit political scientists and lawyers but are also looking for all kinds of profiles, including scientists, linguists, IT experts, data analysts and economists, as well as drivers and engineers.

We are committed to equal opportunities and to fostering a rich, diverse and inclusive working environment. We aim for our workforce to be representative of European society and strongly welcome applications from all qualified candidates. We actively seek to create a workplace where each staff member feels valued and respected, can give their best and can develop to their full potential.

To promote diversity and establish a geographically balanced pool of candidates, we strongly encourage applicants from Member States which are currently underrepresented in the European Commission workforce to apply. These Member States are currently Austria, Cyprus, the Czech Republic, Denmark, the Netherlands, Estonia, Finland, Germany, Ireland, Luxembourg, Malta, Poland, Portugal, Slovakia and Sweden¹. Recruitment will however remain strictly based on the merits of all applicants and no positions will be reserved for nationals of any specific Member State.

STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission offers **non-permanent** positions. There are two categories of non-permanent staff:

- [temporary agents](#) are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- [contract agents](#) may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

¹ Please note that the list of underrepresented Member States may be subject to future amendment based on potential data changes over time.

Policy Officer **in DG HERA of the European Commission**

Job title*: Policy officer

Domain:** Health

Where: Unit HERA.2, Intelligence Gathering, Analysis and Innovation , Brussels

Function Group: FG IV

Contract Type: 3b

Express your interest until: 14.11.2025 - 12.00 (noon, Brussels time)

WE ARE

The newly created Health Emergency Preparedness and Response Authority (HERA) which is established as a Directorate-General of the European Commission.

The HERA shall assist the Commission to improve preparedness and response to serious cross-border threats in the area of medical countermeasures, in particular:

- strengthening health security coordination within the Union involving all relevant actors during preparedness and crisis response times and bringing together the EU Member States, industry and relevant stakeholders in a common effort;
- addressing vulnerabilities and strategic dependencies within the Union related to the development, production, procurement, stockpiling and distribution of medical countermeasures;
- contributing to reinforcing the global health emergency response architecture.

The HERA shall be responsible for the following tasks which shall be exercised in close cooperation with the Member States:

- assessment of health threats and intelligence gathering relevant to medical countermeasures;
- promoting advanced research and development of medical countermeasures and related technologies;
- addressing market challenges and boosting the Union's open strategic autonomy in medical countermeasures production;
- swift procurement and distribution of medical countermeasures;
- increasing stockpiling capacity of medical countermeasures;
- strengthening knowledge and skills in preparedness and response related to medical countermeasures.

HERA.02 is the unit in charge of Intelligence Gathering, Analysis and Innovation. The unit lays the foundations for structured and targeted pandemic preparedness and response planning in area of medical countermeasures (MCM) by developing and strengthening intelligence gathering systems and activities, including the development of IT tools, whose inputs will inform and guide HERA's action in identifying, assessing and addressing serious cross-border health threats. To this end, this unit aims to promote research, innovation and development of medical countermeasures able to prevent, detect, and rapidly respond to health emergencies.

WE PROPOSE

We propose a position in the Unit in charge of i) assessment of health threats and intelligence gathering relevant to medical countermeasures; and ii) promoting advanced research and development of medical countermeasures and related technologies. The job holder will contribute to the implementation of the MCM strategy on these aspects. The jobholder will notably gather intelligence on HERA's priority health threat, in particular on scenarios to prepare against, MCM needs, MCM landscape and MCM pipeline, as well as on ongoing interventions in support of MCM innovation and access. They will contribute to the identification of gaps and prioritisation of interventions to be implemented by HERA along the whole MCM lifecycle (including innovation, manufacturing, purchasing, marketing, stockpiling).

These tasks will be exercised by desk research as well as active information requests and exchanges with a broad range of stakeholders. The job will be focused on high priority threats for HERA, namely viruses with pandemic or epidemic potential listed in the MCM strategy, and AMR pathogens.

WE LOOK FOR

We are looking for a highly motivated and skilled colleague to join our team. As a policy officer, you will play a critical role in supporting the intelligence gathering and innovation functions. The job requires ideally a combination of scientific and policy background and experience. Excellent communication skills both oral and written in English are essential. It will be key to have the ability to understand the health crisis and preparedness domain related to the priority threats of HERA. It will also be essential that you are able to interact with high-level scientific and technical experts, and to translate scientific or technical outputs into policy recommendations for decision making to support availability and accessibility of MCM, including in relation to funding.

The candidate should have the following skills:

- Prior experience and/or sound understanding of health threats
- Prior experience on MCM path to market, including vaccines, therapeutics, diagnostics, medical devices and personal protective equipment.
- Understanding the processes of data collection and analysis in relation to health threats and medical countermeasures

- Knowledge on modelling of health threats in view of assessing the impact of MCM interventions would be an asset
- Combined experiences and qualifications in the medical, public health and veterinary domain would be an asset, in particular in relation with HERA priority health threats (viruses with pandemic or epidemic potential, AMR bacterial and fungal infections).
- Excellent organizational and time management skills, with the ability to handle multiple tasks and priorities.
- Problem solving and an ability to get things done, as well as a good eye for detail.
- Communication and interpersonal skills, with the ability to work collaboratively in a team environment.
