## STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission offers non-permanent positions. There are two categories of non-permanent staff:

- **temporary agents** are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- **contract agents** may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

#### WE ARE

Eurostat, one of the Directorates-General of the European Commission, is the statistical office of the European Union. Eurostat's mission is to provide high quality statistics and data on Europe. Eurostat co-ordinates statistical activities at Union level and more particularly inside the Commission.

Unit G.4 is one of four units in Eurostat's Directorate for Business and Trade Statistics, and we are in charge of annual statistics in the areas of International Trade in Services statistics (ITSS), Foreign Affiliates Statistics (FATS) and Foreign Direct Investment (FDI) statistics. #### WE PROPOSE

We propose a post for an AST to work in the area of globalisation, more specifically on the annual data collections of the international trade in services statistics.

International trade in services statistics encompass the following datasets:

- annual Services trade by enterprise characteristics (STEC) which links the ITSS data to business characteristics of the trading enterprise, and
- annual data on services trade by Modes of Supply (MoS), which provides the value of services supplied by all four modes of supply as defined in the WTO's general agreement in trade in services (GATS).

Work is performed under the supervision of the team leader and in cooperation with other members of the team. The main tasks include:

- Annual data validation: validate and prepare for publication the data of EU Member States, EFTA and candidate countries;
- monitor the quality of the data provided according to agreed standards;
- contribute to the ITSS quality reports, update the online statistical articles on ITSS, contribute to other reports relevant to ITSS;
- contribute to the provision of replies to user requests and
- contribute to the ITSS working group meeting with the member states.

Depending on the successful candidate's interests the candidate may also contribute to other projects in the team, such as the ITSS Asymmetry Resolution Mechanism, methodological developments or process improvements.

The selected candidate will be able to work fairly independently in the team.
