We are committed to equal opportunities and to fostering a rich, diverse and inclusive working environment. We aim for our workforce to be representative of European society and strongly welcome applications from all qualified candidates. We actively seek to create a workplace where each staff member feels valued and respected, can give their best and can develop to their full potential.

To promote diversity and establish a geographically balanced pool of candidates, we strongly encourage applicants from Member States which are currently underrepresented in the European Commission workforce to apply. These Member States are currently Austria, Cyprus, the Czech Republic, Denmark, the Netherlands, Estonia, Finland, Germany, Ireland, Luxembourg, Malta, Poland, Portugal, Slovakia and Sweden¹. Recruitment will however remain strictly based on the merits of all applicants and no positions will be reserved for nationals of any specific Member State.

STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission offers non-permanent positions. There are two categories of non-permanent staff:

- [temporary agents](#) are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- [contract agents](#) may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

¹ Please note that the list of underrepresented Member States may be subject to future amendment based on potential data changes over time.

IT Security Officer AI Expert

in DG DIGIT CERT-EU of the European Commission

Job title: IT Security Officer - AI Expert

Domain: Information and Communication Technologies

Where: DIGIT.CERT-EU, Brussels

Function Group: FG IV

Contract Type: 3b

Express your interest until: 27.04.2026 – 12.00 (noon, Brussels time)

WE ARE

DG DIGIT-Digital Services is the Directorate whose aim is to deliver digital services to enable EU policies and to support the Commission's internal administration. CERT-EU is the Cybersecurity Service for the European Union institutions, bodies, offices and agencies (Union entities). CERT-EU is administratively attached to DIGIT.

Established in 2011 to shore up the ICT security for the Union entities, we have been steadily expanding our IT security operations over the years and currently serve over 90 such entities spread across the Continent and beyond. From our base in Brussels, we work with a range of peers, partners and researchers from all over the world to ensure we maintain our technological edge and have access to the best-in-class expertise.

WE PROPOSE

DIGIT CERT-EU is seeking to hire a truly motivated IT Security Officer: AI Expert to join our AI Team.

The primary purpose of this role is to enhance the organisation's capacity for studying, testing, fine-tuning, and deploying AI technologies to bolster cybersecurity defences for all involved parties.

This is a challenging and empowering job which provides many opportunities for one's competencies to shine in a very friendly, supportive, human and professional environment.

The position will consist of:

- Assist in deploying AI-related technologies to increase efficiency of various internal teams.
- Work closely with different teams to help identify possible AI applications that can improve existing processes.
- Help in applying large language models to classify and understand data.

- Learn about the latest trends in AI and cybersecurity to help our team stay ahead.
- Support the integration of AI technologies into our existing tools and environments.
- Offer technical help and advice to our teams on how to use AI tools safely and effectively.

WE LOOK FOR

The selected candidate should demonstrate the following required skills and characteristics:

- Programming languages: Python (primary), with familiarity with other languages being a plus.
- Experience with AI/ML frameworks and libraries like TensorFlow, PyTorch, Hugging Face Transformers, or similar.
- In-depth knowledge of open-source Large Language Models (LLMs), including hands-on experience with inference engines such as llama.cpp, vLLM, or similar.
- Understanding of Natural Language Processing (NLP) concepts, including text preprocessing, tokenization, and language modelling, and knowledge graphs.
- Experience with on-premise infrastructure management, including Linux operating systems and containerization tools like Docker.
- Ability to collect, analyse, and interpret data related to AI model performance and impact, with understanding of statistical concepts and metrics.

The selected candidate should also demonstrate the following skills:

- Strong analytical skills to analyse use-cases, define requirements, and choose the most appropriate technologies.
- Ability to establish and maintain effective working relations with co-workers in an international and multi-disciplinary work environment.
- A high degree of commitment and flexibility.
- Excellent communication skills in English, both orally and in writing.
- Ability to handle parallel tasks and cope with pressure.
- Strong teamwork abilities.
- A focus on constant learning and improvement of technical and personal skills.

To make your application stand out, please consider that the ideal candidate will possess some, or all, of the following:

- A university-issued diploma or equivalent.
- At least 2 years of solid experience in applying AI technologies – preferably within the cybersecurity domain.
- Experience in managing projects, including planning, execution, and evaluation phases.
- Strong familiarity with cybersecurity principles, threats, and countermeasures.

The candidate must hold a security clearance at EU SECRET level or be in a position to be security cleared.

HOW TO EXPRESS YOUR INTEREST?

With a view to guaranteeing equal access to all, the Commission recruits from an open database of spontaneous applications. The present call for interests aims at helping the recruiters to identify potentially interested candidates within this database.

In practice, to express your interest, please follow the subsequent two steps:

1. If you are not registered yet in the open EPSO database, please do so at the following address: [CAST Permanent](#). Please select under selection procedures for contract agent the CAST permanent profile that best suits your education and experience.
2. You should send your documents **in a single merged pdf** in the following order:
 1. your CV
 2. completed application form.

Please send these documents by the publication deadline to secretariat@cert.europa.eu indicating the call for interest reference **EC/2026/DIGIT/497941** in the subject.

No applications will be accepted after the publication deadline.

➤ **What about the selection steps?**

The selecting unit chooses from the EPSO database⁴ candidates with the appropriate profile and invites them to an interview. For the interview a selection panel is set-up to assess the best candidates. Due to the large volume of applications that we may receive only candidates selected for the interview will be notified.

For operational reasons and in order to complete the selection procedure as quickly as possible in the interest of the candidates and of the institution, the selection procedure will be carried out in English and possibly in a second official language.

2. Recruitment

The candidate selected for recruitment will be requested to provide documentary evidence in support of the statements made in the database and, where relevant, the call for interest.

The successful candidate will be required to undergo a mandatory pre-recruitment medical check-up carried out by the Commission. Candidates are required to undergo a security vetting that is conducted with the national administration of the Member State.

➤ **Type of contract and working conditions**

The place of employment will be in Brussels.

The successful candidate will be engaged as a **contract agent under Article 3(b) of the [Conditions of Employment of Other Servants](#), in function group FG IV**. General information on Contract Agents can be found at this link.

The grade or proposed grade range, as well as the step in that grade, will be defined on the basis of the candidates' previous professional experience, in accordance with [Commission Decision C\(2017\)6760](#) laying down the criteria applicable to classification in step on engagement.

The duration of the first contract will be **1 year**. Subject to the interest of the service, the contract can be extended to a maximum duration of **6 years**.

The duration of the renewal(s) will be defined according to the General Implementing Rules in force at that moment (currently, [Commission Decision C\(2017\)6760](#) on policies for the engagement and use of contract agents).

⁴ Therefore, candidates who did not pass already a CAST on the level Function Group [IV], should register their profile at this [address](#).

All new staff have to successfully complete a 9-month probationary period.

The pay of staff members consists of a basic salary supplemented with specific allowances, including, where applicable, expatriation and family allowances. The provisions guiding the calculation of these allowances can be consulted in the Conditions of Employment of Other Servants. As a member of staff of the European institutions, your pay is subject to a tax raised by those institutions.

The European Commission applies a policy of equal opportunities and non-discrimination in accordance with Article 1d of the Staff Regulations.

Should you need further information on working conditions, please refer to [Working conditions and benefits of EU Careers](#).

For information related to Data Protection, please see the Specific [Privacy Statement](#) under “7. Information to data subjects on their rights”, to find your rights and how to exercise them in addition to the privacy statement, which summarises the processing of your data.
