We are committed to equal opportunities and to fostering a rich, diverse and inclusive working environment. We aim for our workforce to be representative of European society and strongly welcome applications from all qualified candidates. We actively seek to create a workplace where each staff member feels valued and respected, can give their best and can develop to their full potential.

To promote diversity and establish a geographically balanced pool of candidates, we strongly encourage applicants from Member States which are currently underrepresented in the European Commission workforce to apply. These Member States are currently Austria, Cyprus, the Czech Republic, Denmark, the Netherlands, Estonia, Finland, Germany, Ireland, Luxembourg, Malta, Poland, Portugal, Slovakia and Sweden¹. Recruitment will however remain strictly based on the merits of all applicants and no positions will be reserved for nationals of any specific Member State.

STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission offers **non-permanent** positions. There are two categories of non-permanent staff:

- **temporary agents** are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- **contract agents** may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

WE ARE

The Directorate-General for Digital Services (DIGIT) is the Commission department tasked with delivering digital services to support both Commission departments and EU institutions, as well as public administrations in EU member states. DIGIT B.1 offers digital services focused on data analytics, artificial intelligence, and web content management, providing essential components, platforms, solutions, procurement, and advisory services for the Commission's digital transformation. The unit contributes to the Commission's AI strategy and chairs the Interservice Steering Group on AI operationally. It also plays a pivotal role in executing the organisation's data analytics strategy. Within the unit, the Data & Artificial Intelligence Operations sector is in charge of implementing the strategic vision for corporate digital services in data analytics and AI, offering expert guidance, driving the adoption of innovative solutions using AI, big data, and other emerging technologies, and managing data analytics and AI platforms and products.

WE PROPOSE

Unit B.1 of DIGIT is seeking to hire one 'ICT Security Officer' for the activities of the 'Data & Artificial Intelligence Operations' sector. As 'ICT Security Officer', the successful candidate will be responsible for the application of the cybersecurity and compliance policies of DIGIT in the sector, with particular attention to the aspects of its technical and practical implementation. The job involves close cooperation with other teams within the sector but also with many stakeholders within DIGIT.

The successful candidate will be responsible for:

- Performing the cybersecurity risk assessment of IT systems in collaboration with relevant stakeholders by selecting the necessary security measures to mitigate identified risks.
- Coordinating and ensuring the proper implementation of the cybersecurity implementation plan following the risk assessment.
- Liaising with System Owner, System Manager, Data Owner and Data Protection Coordinator on the incident investigation and response during the process of security incident management.

- Ensuring IT systems are designed and developed considering all the necessary EC standards, guidelines and technology best practices
- Supporting System Owner under the IT security compliance and continuous improvement process by attesting the status of the IT system controls periodically and reporting back to senior management, LISO and DIGIT.S1 as necessary.

WE LOOK FOR

A highly experienced and motivated candidate, with the capacity to steer strategic and technical developments, lead technical and business teams and engage with stakeholders. Technical specific knowledge, communication and negotiation skills, and flexibility are essential to this position.

This job requires the following competencies and skills:

- Solid experience and background in IT services development and operations, preferably with IT security expertise in the domain of Data & Artificial Intelligence.
- A computer science background, preferably with specialisation in IT security.
- Open-minded analytical thinking and ability to analyse and solve complex problems.
- Ability to communicate both orally and in writing in English.
- Proven experience to steer, work with, motivate and inspire teams of skilled experts.
- Good organisational, negotiation, communication and people management skills.
- Ability to develop and implement strategic undertakings.
- Service-minded attitude.
