

MAKE A DIFFERENCE - JOIN THE EUROPEAN COMMISSION

Do you want to help shape the future of the European Union? Make the planet greener, promote a fairer society, or support businesses and innovation across the EU? Then come and work for the European Commission where you can really make a difference!

Commission staff are a diverse group of people, who are motivated to help make Europe – and the world – a better place. They come from the 27 Member States of the European Union. Different nationalities, backgrounds, languages and cultures make the Commission a vibrant and inclusive place to work.

WE OFFER GREAT JOBS AND GREAT WORKING CONDITIONS:

- Interesting and challenging jobs with plenty of opportunities for training and acquiring new skills and competencies throughout your whole career
- Opportunities to move between different policy areas throughout your career
- A package of flexible working conditions including the possibility of teleworking – we care about your work-life balance
- A competitive financial package, including comprehensive healthcare, accident and pension schemes
- A multilingual, multicultural workplace where personal and career development are strongly promoted
- Multilingual schools for your children

We recruit from a wide range of backgrounds and actively promote diversity and inclusion:

We do not only recruit political scientists and lawyers but are also looking for all kinds of profiles, including scientists, linguists, IT experts, data analysts and economists, as well as drivers and engineers.

We are committed to equal opportunities and to fostering a rich, diverse and inclusive working environment. We aim for our workforce to be representative of European society and strongly welcome applications from all qualified candidates. We actively seek to create a workplace where each staff member feels valued and respected, can give their best and can develop to their full potential.

To promote diversity and establish a geographically balanced pool of candidates, we strongly encourage applicants from Member States which are currently underrepresented in the European Commission workforce to apply. These Member States are currently Austria, Cyprus, the Czech Republic, Denmark, the Netherlands, Estonia, Finland, Germany, Ireland, Luxembourg, Malta, Poland, Portugal, Slovakia and Sweden¹. Recruitment will however remain strictly based on the merits of all applicants and no positions will be reserved for nationals of any specific Member State.

STAFF RECRUITED ON CONTRACTS

In addition to permanent officials, the European Commission offers non-permanent positions. There are two categories of non-permanent staff:

- **[temporary agents](#)** are recruited to fill vacant positions for a set amount of time or to perform highly specialised tasks.
- **[contract agents](#)** may provide additional capacity in specialised fields where an insufficient number of officials is available or carry out a number of administrative or manual tasks. They are generally recruited for fixed-term contracts (maximum 6 years in any EU Institution), but in some cases they can be offered contracts for an indefinite duration (in offices, agencies, delegations or representations).

IT Project Assistant – Data Scientist

In the Paymaster Office (PMO) of the European Commission

Selection reference: PMO/COM/2026/827

Domain: Remunerations, Rights and Obligations

Where: Unit PMO.6 – “Digital Solutions” - Brussels

Staff category and Function Group: Temporary agent 2b – Assistant

Grade range: AST1-4

Publication deadline: 04.05.2026 - 12.00 (Brussels time)

WE ARE

The mission of the PMO (Paymaster Office or Office for the administration and payment of individual entitlements) is to provide a high-quality and user-friendly service to beneficiaries by promptly and accurately managing, determining and paying individual rights and expenses (e.g., salaries, pensions, sickness insurance reimbursements and mission expenses).

PMO.6 – Digital Solutions, based in Brussels, provides services, solutions, guidance and expertise in the areas of data and reporting, IT security, IT application coordination and infrastructure. Consequently, the unit supports the operational and strategic activities of the PMO with the aim to improve efficiency through information and knowledge sharing, interoperability, integration and standardisation. The support team provides support to users on any IT issues related to the IT applications underpinning all the business processes in PMO: salaries and the payroll system, missions, reimbursement of medical expenses, reimbursement of candidates and experts' expenses. In addition to the support of the systems, the team is responsible for the management of access rights for the applications.

WE PROPOSE

PMO.6 is seeking to hire an IT Project Assistant with strong expertise working with modern data and AI building blocks. Working under the supervision of an official or a temporary agent, your responsibilities will be multiple and varied. You will contribute to the design, implementation, and continuous improvement of PMO services by conceiving and implementing innovative solutions using the new capabilities brought by Artificial Intelligence. You will do so in a respectful and compliant way with corporate principles and regulations.

Your main responsibilities will include:

1. Analysing, validating and documenting business and data requirements, in close cooperation with stakeholders across the HR domain and other services, possibly using AI-powered tools
2. End to end implementation of prototypes and proofs of concept using corporate building blocks and suitable technologies, in line with compliance requirements and the sensitivity of the data assets involved

3. Contributing to project-related activities for the development of new Digital Solutions, in particular those involving the use of AI, or the extension of existing ones to new business processes: elaboration of project strategies and planning, definition of tasks and review of deliverables, testing, validation and continuous improvements, identification of risks, reporting and organization of change control of.
4. Supporting the implementation of production-grade digital solutions with AI components, including prompt fine-tuning, testing and validation
5. Developing and maintaining dashboards, indicators, and analytics reports to facilitate the use of AI solutions by business users, ensuring they meet user needs and provide actionable insights.

This work is crucial for the efficient management of the financial and medical reimbursement services for which the PMO acts as provider, ensuring that the underlying data and reporting are reliable, consistent and accessible. It is carried out in close cooperation with business experts, project managers, data specialists in other IT sectors of PMO.6, and with the Directorate-General for Digital Services (DIGIT).

The selected colleague might also be requested to work elsewhere in the PMO depending on the needs of the service.

WE LOOK FOR

We are looking for a structured and innovative professional, with strong data expertise, excellent analytical skills and a client-oriented mindset. The ideal profile should demonstrate:

- Good knowledge of modern AI models and associated technologies, from prototyping to operationalization
- Scripting and programming skills (e.g. Python, SQL) for data processing, modelling and analytics, including using AI-assisted coding tools
- Proven ability to gather requirements, model data and translate complex needs into concrete solutions.
- Knowledge of the regulatory framework (Staff Regulations, JSIS, GIPs) would be an asset.
- Excellent command of English (oral and written) is required; knowledge of French is an asset.
- Familiarity with ticketing tools (e.g. JIRA, ServiceNow) with experience working in agile environments is an asset
- Knowledge of Business Intelligence and reporting tools (QlikSense, SAP Business Objects...) is an asset.

In addition, the selected candidate should demonstrate the following personal qualities:

- Proactivity and ability to respect priorities and deadlines, including working under pressure during peak periods.
- Team spirit and ability to collaborate effectively with diverse stakeholders.

- Drive for innovation and a strong interest to follow the last developments in the AI domain
- Methodology, thoroughness, responsiveness and a strong sense of client service.
- Willingness and capacity to acquire new knowledge as well as to leverage previous experience in other domains.

The candidates are susceptible when needed by the service to provide support to other Sectors.

The pre-selected candidates will be invited to an interview and written test soon after the closing date for application.

HOW TO EXPRESS YOUR INTEREST?

You should send your documents in a single pdf in the following order:

1. your CV
2. completed application form.

Please send these documents by the publication deadline to PMO-PUBLICATIONS-AC@ec.europa.eu indicating the selection reference PMO/COM/2026/827 in the subject.

No applications will be accepted after the publication deadline.
